SEED LIST

1937

The seeds listed here were gathered fresh during the 1936 season. We sell only fresh seed, and will have a new list next year. Supplies available are in many cases limited. You are urged to order early to avoid disappointment. We would appreciate a list of substitutes to be used in case of shortage. Due to many advance inquiries some of our choicest items are already sold out, so that our list is not so comprehensive as we could wish for this season.
